ABSTRACT

This expanded listing of dissertations on ecology and the environment updates those previously listed in the 1972 publication. It covers the period from 1970-1976. In combination, these two works list more than 5,500 dissertations covering such topics as pollution, conservation, pesticides, radiation, wastes, and birth control. In addition to the dissertations cited, a title collection of Masters theses is included. Titles in this catalog are listed alphabetically by author under 108 key subject headings for dissertations and 24 key subject headings for masters materials. Each dissertation entry includes author, full title, degree earned, school name, date of degree, number of text pages, citation to Dissertation Abstracts International (volume/issue/page number), and the order number for purchasing the full-text reproduction. Introduction

This expanded listing of dissertations on ecology and the environment up-dates those previously listed in *A Bibliography of Doctoral Research on Ecology and the Environment* (published 1972).

The former publication identified titles of doctoral dissertations on ecology, the environment and related topics accepted by North American Universities between 1938 and 1970. The present publication covers the period from 1970 through 1976. In combination, these two works list more than 5,500 dissertations covering such areas of study as pollution, conservation, pesticides, radiation, wastes and birth control as they relate to Ecology and the Environment around the world.

Each dissertation cited appeared in abstract form in *Dissertation Abstracts International.* In addition to the dissertations cited, we have included a title collection of masters theses abstracted in *Masters Abstracts,* Volumes I-XII, 1962-1974. These titles are arranged under several subject headings and appear at the end of this catalog. With the addition of Masters Theses, this catalog provides a unique reference tool for current research.

Most titles cited in this catalog are available from University Microfilms International as xerographically-produced bound paper reprints or on 35mm roll microfilm. All items with a 76 prefix (BKE 76-12054) are also available on microfiche.

To facilitate access to desired papers, titles in this catalog are listed alphabetically by author under 108 key subject headings for dissertations and 24 key subject headings for the masters materials. Each dissertation entry includes author, full title, degree earned, school name, date of degree, number of text pages, citation to *Dissertation Abstracts International* (volume/issue/page number), and the order number for purchasing the full-text reproduction.

Ordering Information

Effective October 1, 1975

When ordering dissertation or masters thesis copies supply the order number (including all letters and numbers, e.g., DBG75-0102), author's last name, complete dissertation or thesis title, format and type of binding wanted, billing name and address (on institutional orders only), and shipping name and address. Individuals *must* send a check or money order with their order. Institutions will be billed when their order is shipped; they should use their standard purchase order form, being sure to include the purchase order number and tax exemption number if applicable.

PAPER COPIES

Paper copies of dissertations and masters theses available from University Microfilms International are reproduced xerographically at about 2/3 the original size. They will be perfect-bound and covered in paper. Clothbound copies are available at an additional charge (see Prices below), with author and title stamped in gold on the spine. Unless you specify "cloth binding" (and on prepaid orders include the additional cost) on your order, you will be shipped the standard paper cover.

Pages are printed in numerical sequence by xerography; but, since printing is on one side of a continuous web, the finished copy has printing on the right-hand pages only. Charts, graphs, line drawings, and similar illustrations reproduce quite well. For pages where half-tones and continuous tone enlargements of higher quality are required, photographic prints can be made on request for an additional charge.

Prices for Paper Copies

Paper copies purchased are priced as follows:

DEMAND COPIES		U.S.	Canada/Mexico	Elsewhere
1 - 99 Titles:	Academic*	$15.00 ea.	$16.50 ea	$23.00 ea.
	Other	$20.00 ea.	$22.00 ea.	$23.00 ea.

Clothbound copies are an additional $3.00 per volume. Photographic prints are $1.00 each.

MICROFILM COPIES

Dissertations or masters theses can be ordered on 35mm positive (black on white) microfilm made at a reduction of 15-20x. If you prefer this format, be sure to specifically note "microfilm" on your order.

Prices for Microfilm Copies

Microfilm copies are priced at follows:

DEMAND COPIES		U.S.	Canada/Mexico	Elsewhere
1 - 99 Titles:	Academic*	$ 7.50 ea.	$ 8.25 ea.	$11.50 ea.
	Other	$10.00 ea.	$11.00 ea.	$11.50 ea.

PAYMENT

Individuals *must* send a check or money order with their order. Prepaid orders need not include shipping and handling charges unless priority shipment is required. For priority shipment add $1.00 plus $1.00 per title for microform and $1.00 plus $2.00 per title for xerography. Institutions will be billed when their order is shipped; they should use their standard purchase order form, being sure to include the purchase order number and tax exemption number if applicable.

DELIVERY

Orders are shipped within 2 to 4 weeks after they are received.

WHERE TO PLACE YOUR ORDER

Customers in the United States, Canada, Central and South America, and the Caribbean should address orders and inquiries concerning the dissertation and/or masters thesis program to:

University Microfilms International
P. O. Box 1764
Ann Arbor, Michigan 48106

All other customers should direct their orders and inquiries to:

University Microfilms International
18, Bedford Row
London WC1R 4EJ, England

**Academic prices apply to all universities, colleges, and high schools. This includes their libraries, departments, faculty, staff, and students.*

All prices quoted are subject to change.

The only reference work of its kind

North American Indians

A comprehensive index of doctoral dissertations on North American Indian life—past and present

History, language, ethnography, current problems . . . these and other subjects are investigated in the doctoral dissertations indexed in this unique new volume. It is an essential reference tool for persons studying or teaching Indian-related subjects, or planning or administering a public or private program dealing with any aspect of Indian life. Over 9,600 citations; author index; annual supplements.

Compiled by University Microfilms International from its data base of over one-half million doctoral dissertations, this comprehensive index puts you in touch with the latest developments in all areas of career education. The index is current and all-inclusive, yet efficiently organized by key words for easy use. Each entry identifies the location of an abstract in *Dissertation Abstracts International* and provides all information necessary for ordering full text copies from University Microfilms. This valuable new index will be used over and over again by career education faculty in high schools, junior colleges, universities and specialized institutions; as well as by administrators, government personnel and researchers.

OUR DEMAND REPRINT PROGRAM KEEPS MORE THAN 100,000 BOOKS AVAILABLE FOR REFERENCE OR BASIC RESEARCH

Over the years, University Microfilms has built a vast collection of books that have gone out of print from their original publishers, but that are available as on-demand, xerographic reprints. Available titles were originally published by university presses, textbook publishers, private presses and large trade book houses in all parts of the world. Some were published as recently as last year, while others date back as far as the 15th century. Together, they represent significant subjects from the sciences to the humanities, and various forms from fiction to reference works.

In order to make this collection more accessible, University Microfilms produces subject catalogs that list all available on-demand reprints within specific Library of Congress classes.

Within the catalogs, titles are arranged in main entry sequence, with entries based primarily on Library of Congress cataloging information.

Thousands of new titles are added to the Books On Demand program each year. Many of the titles are acquired through agreements with publishers who submit their books to the program as they go out of print or out of stock. Many others are obtained from authoritative bibliographies in areas of high interest.

The following subject catalogs are available upon request, and, with one exception, at no charge:

[ ] African History
[ ] Anthropology
[ ] Energy
[ ] Genealogies & Family Histories ($1.00)
[ ] Geography
[ ] Hispano-American History
[ ] Law Enforcement
[ ] Medicine
[ ] Philosophy
[ ] Psychology
[ ] Religion
[ ] Sociology
[ ] Slavic Titles

STEPS FOR COMPLETING THIS ORDER FORM

1. *Students must enter their student identification number here to qualify for academic prices.
2. Indicate the quantity for each item ordered.
3. Use the order number, which can be obtained from DISSERTATION ABSTRACTS INTERNATIONAL, THE COMPREHENSIVE DISSERTATION INDEX, SUBJECT LISTS, or a DATRIX II listing; or from MASTERS ABSTRACTS.
4. 5. Give author and title as requested.
6. Indicate the format you prefer by recording the price in the appropriate column. Use the Price List below to compute your cost. Microfiche is available only for titles with order numbers with a 76-prefix.
